

Nagaraj G. Kanni

Software Engineer — Applied ML & Full-Stack Systems

San Jose, CA · nagarajgk50@gmail.com · +1 408 210 2658 · github.com/Nags-gk · linkedin.com/in/nagsgk

Software Engineer specializing in applied ML and full-stack systems. Formerly a Quantum Machine Learning researcher at Unisys, now building RAG assistants, analytics pipelines, and cloud-deployed products. Open to Software Engineering roles for 2026.

EXPERIENCE

Student Researcher Nov 2021 – Jul 2022

Unisys Pvt Ltd · Bangalore

- 9-month research fellowship in Quantum Machine Learning, developing hybrid quantum-classical algorithms.
- Engineered Quanyvolutional Neural Networks (Cirq, Qiskit, PennyLane) for image classification; +5% accuracy vs. classical CNN baselines.
- Awarded “Certificate of Recognition” for technical excellence in R&D.

Software Developer Intern Jun 2021 – Jul 2021

The Sparks Foundation · Remote

- Built a responsive banking web application with a real-time digital passbook.
- Implemented secure PHP transaction processing with validation and error handling.

EDUCATION

MS, Software Engineering 2024 – 2025

San Jose State University

BE, Computer Science 2018 – 2022

Nitte Meenakshi Institute of Technology

SKILLS

LANGUAGES

Python, JavaScript, TypeScript, Java

FRAMEWORKS

React, Next.js, FastAPI

AI / ML

PyTorch, TensorFlow, LangChain

QUANTUM

Qiskit, PennyLane, Cirq

DATABASES

PostgreSQL, MongoDB, MySQL

CLOUD

AWS, Google Cloud, Vercel

SELECTED PROJECTS

Taxbot — RAG tax assistant on LangChain, ChromaDB, and Gemini. 90% accuracy · –60% latency

Snooptrade — Insider-trading analytics pipeline joining SEC filings to price data. FastAPI · AWS

Quantum ML Research — Quanyvolutional Neural Networks for image classification. +5% vs. classical CNN

Canvas-Go — Secure LMS with JWT auth and an optimized MySQL schema. –35% query latency

Bitsmart — Multivariate LSTM Bitcoin price forecaster. 7-day forecast window

CERTIFICATIONS

Quantum ML Research (Unisys) · Python for Everybody (Univ. of Michigan) · Intro to IoT (Cisco) · Intro to Cybersecurity (Cisco) · Rotational Internship (Sparks Foundation) · SQL Programming (LinkedIn Learning)
